Subject: Extension Request: [UHV Poster Presentation] - [Varan Agrawal] - [25BSA10099]

Dear Sir [Dr. Abinav],

I hope this email finds you well.

I am writing to respectfully request an extension for the **Universal Human Values (UHV)** assignment, which is currently due on **Friday, March 27th**.

Unfortunately, I have recently been diagnosed with [a severe case of viral fever / a repetitive strain injury in my wrist], and my doctor has advised me to take complete rest for the next few days. This has made it difficult for me to sit at my desk and complete the digital portion of the assignment by the original deadline.

Would it be possible to submit my assignment by **Wednesday, April 1st** instead? I have already completed a portion of the task and would appreciate the extra time to ensure it meets the required standards.

Thank you for your time and consideration.

Best regards

Varan Agrawal

Subject: Summer Internship Inquiry | BTech Computer Science and Engineering | First Year Student

Dear Google University Graduate Recruiter,

I hope this email finds you well.

I am writing to express my strong interest in a summer internship opportunity at **Google**, specifically within the software engineering or STEP (Student Training in Engineering Program) teams. As a first-year **Bachelor of Technology (BTech)** student majoring in **Computer Science and Engineering**, I have been closely following Google's contributions to open-source technology and its commitment to building scalable, global software solutions.

Currently, I am focused on building a rigorous technical foundation in **Python and C++** while exploring the fundamentals of data structures and digital literacy. I am an active participant in technical workshops at my university and am eager to apply my problem-solving skills to a collaborative, professional environment. I am particularly interested in how Google utilizes innovative architecture to solve complex real-world challenges.

I have attached my resume and provided links to my **GitHub** and **LinkedIn** profiles for your review. I would welcome the opportunity to discuss how my academic background and passion for technology align with Google's mission.

Thank you for your time and for considering my application.

Best regards,

[Varan Agrawal]
